

Annual Season  
and  
Crop Report of the Bombay Presidency  
for the year  
1929-30

Government

1931

*Report.*

Season and Crop — for the  
year 1929-30.

GOVERNMENT OF BOMBAY.

REVENUE DEPARTMENT.

Resolution No. P-119/338.

Bombay Castle, 19th January 1931.

Letter from the Director of Agriculture (Mr. T. F. Main, O.B.E.)  
No. P-11 dated 18th October 1930—Submitting the Season and  
Crop Report of the Bombay Presidency for the year 1929-30.

RESOLUTION.—Recorded.

By order of the Government of Bombay  
(Transferred Departments),

G. K. JOSHI,

Under Secretary to Government.

To

The Director of Agriculture,  
The Chief Agricultural Officer in Sind,  
The Commissioner in Sind,  
The Commissioners of Divisions,  
The Settlement Commissioner and Director of Land Records,  
All Collectors, including the Deputy Commissioner, Upper  
Sind Frontier,  
The Chief Conservator of Forests,  
The Conservators of Forests, Northern, Central, Southern and  
Sind Circles,  
The Finance Department,  
The Public Works Department,  
The High Commissioner for India, London (by letter).

# TABLE OF CONTENTS

## REPORT

### CHAPTER I

	Para.	Page
Administrative changes .. .. .	1-2	1-2

### CHAPTER II—COUNTRY SPIRIT

Sale strength .. .. .	3	2
Receipts from still head duty .. .. .	4	2
Vend and license fees .. .. .	5	2
Revenue and consumption in the Akrani tract .. .. .	6	2-3
Working of the contract supply system .. .. .	7	3
Working of the Mahura Flowers Act .. .. .	8	3
Country spirit shops .. .. .	9	3
Advisory Committees .. .. .	10	3
Consumption .. .. .	11	3-5
Temperance activities .. .. .	12	5
Administration of Distilleries and Warehouses .. .. .	13	5
Retail sale in excess of prescribed limits .. .. .	14	5

### CHAPTER III—TODDY

Revenue .. .. .	15	5-6
Tree-tax .. .. .	16	6
Vend and License Fees .. .. .	17	6
Trees licensed for tapping .. .. .	18	6
Toddy licenses .. .. .	19	6-7
Consumption .. .. .	20	7
Manufacture of Gul from sweet toddy .. .. .	21	7

### CHAPTER IV—FOREIGN LIQUOR INCLUDING THOSE OF INDIAN MANUFACTURE

Revenue .. .. .	22	7-8
Imports and consumption of foreign liquor .. .. .	23	8-9
Canteen Tenant Licenses .. .. .	24	9
Manufacture of spirituous Medicinal and Toilet preparations in Bond at certain Laboratories .. .. .	25	9-10
Licenses .. .. .	26	10

### CHAPTER V—INTOXICATING DRUGS OTHER THAN OPIUM

#### *Hemp Drugs.*

Cultivation and outturn of Ganja .. .. .	27	10
Issues from Warehouses .. .. .	28	10
Fluctuation in consumption .. .. .	29	10-11
Revenue .. .. .	30	11
Vend licenses .. .. .	31	11

#### *Cocaine.*

Vend licenses .. .. .	32	11
Imports and Issues in the Presidency .. .. .	33	11
Cocaine cases .. .. .	34	11-12

**Statement of corrections required to be made in the Report on the  
Administration of the Excise Department in Sind for the  
year 1929-30.**

In column 2 of the Imperial Return I, *substitute* the figures "7,35,617, 24,917, 40,914, 1,60,420, 1,28,794, 44,560" for the figures "7,34,697, 2,24,665, 98,505, 1,60,561, 1,28,994, 44,136" respectively.

For the total figures "14,19,245" in the said column read "11,62,909."

In column 5 of the Imperial Return I, for the figures "10,77,497, 4,03,702, 1,47,747, 2,40,140, 1,83,984, 71,921" *substitute* the figures "10,78,417, 2,03,954, 90,156, 2,39,999, 1,83,784, 72,345" respectively.

For the total figures "21,75,829" in the said column read "19,19,493."

In column 7 of the Imperial Return I, *substitute* the figures "10,78,417, 2,03,954, 90,156, 2,39,999, 1,83,784, 72,345," for the figures "10,77,497, 4,03,702, 1,47,747, 2,40,140, 1,83,984, 71,921" respectively.

For the total figures "21,75,829" in the said column read "19,19,493."

In column 18 of the Imperial Return I, *substitute* the figures "15,38,856, 2,47,042, 92,156, 2,66,800, 1,83,845, 75,814" for the figures "15,37,936, 4,46,720, 1,49,747, 2,66,941, 1,84,045, 75,390" respectively.

For the total figures "27,13,706" read "24,57,370" in the said column.

In column 48 of the Imperial Return I, *substitute* the figures "17,87,384, 4,92,061, 1,82,090, 5,37,968, 4,10,908, 1,13,805, 36,51,986, (a) 1,44,610" for the figures "17,86,464, 6,91,809, 2,39,681, 5,33,109, 4,11,108, 1,13,381, 39,08,322, (a) 4,48,900" respectively.

The figure "(a) 4,48,900 in column 47 should be "1,44,610" and for the total figures "4,75,891" in the said column and for the total figures "43,57,222" in column 48 read "1,71,601 and 37,96,596" respectively.

In column 51 of Imperial Return I, *substitute* the figures "15,24,867, 4,30,539, 1,62,447, 4,89,315, 3,66,042, 1,02,439, 31,63,941, (a) 1,44,610" for the figures "15,23,947, 6,30,287, 2,20,038, 4,89,456, 3,66,242, 1,02,015, 34,20,277, (a) 4,48,900" respectively.

For the total figures "38,69,177" in the said column read "33,08,551."

In column for 1929-30 *against* items Nos. 2 and 6 of the statement given in paragraph 14 of the report, the figures "19,19,493 and 1,73,894"

should be *substituted* for the figures "21,75,829 and 4,78,184" respectively. In the last column of the same statement for the figures "1,70,608 and 25,673" against items Nos. 2 and 6 *substitute* the figures "4,26,944 and 3,29,963" respectively.

180  
12  
12  
12

For the total figures "43,57,222" in column for 1929-30 and for the total figure "2,57,780" in the last column of the said statement *substitute* the figures "37,96,596 and 8,15,406" respectively.

13  
13  
13  
13  
13

For the figures "1,70,608" in line 1 under "country spirit" of paragraph 16 of the report *substitute* the figure "4,26,944".

13

For the figures "1,18,533" in clause (1) of paragraph 16 of the report *substitute* the figure "3,74,869".

4  
5  
5

For the figures "25,673" in line 1 under "Miscellaneous" of paragraph 20 of the report *substitute* the figure "3,29,963."

5

REPORT ON THE ADMINISTRATION OF THE EXCISE  
DEPARTMENT IN THE BOMBAY PRESIDENCY  
FOR THE YEAR 1929-30

CHAPTER I.

ADMINISTRATIVE CHANGES.

The following changes were introduced in the Excise system and arrangements during the year 1929-30 :—

(1) The rationing system was continued, the rations for all districts being fixed at the same figures as for 1928-29 (G. R., R. D., No. 1531/28 dated 17th January 1929).

(2) The limit of possession, sale and transport of country spirit was increased to 6 quart bottles in rural areas and to 3 quart bottles in urban areas, having the same still-head duty rates (G. R., R. D., No. 1531/28 of 17th January 1929).

(3) Border shops were allowed to sell country spirit of 25° U.P. where the adjoining State shops sold that strength (G. R., R. D., No. 1531/28 of 17th January 1929).

(4) Shops within six miles of the border of an Indian State were ordered to be treated as border shops so far as the sale of country liquor was concerned (G. R., R. D., No. 1531/28 of 17th January 1929).

(5) The tree-tax in the Ratnagiri District was increased from Rs. 3 to Rs. 3-8-0 for date and wild palm, and from Rs. 8 to Rs. 9 for cocconut and brab (G. R., R. D., No. 1531/28 of 17th January 1929) and the rates, which had been raised, were lowered in the Umbergaon petha of the Thana District from Rs. 3 to Rs. 2 for date and wild palm and from Rs. 7-8-0 to Rs. 5 for cocconut and brab (G. R., R. D., No. 50/28 of 17th July 1929).

(6) The country spirit licenses in the Town and Island of Bombay were not auctioned as usual, but as an experiment renewed to the old licensees at a price fixed by the Collector (G. R., R. D., No. 2372/28 of 18th March 1929).

(7) The retail opium licenses in the Town and Island of Bombay were disposed of by inviting tenders instead of being auctioned as formerly (G. R., R. D., No. 10287-24-Confl. of 6th February 1929).

(8) Section 18-B of the Bombay Abkari Act relating to mahura flowers was extended to the whole of the Bombay Presidency proper (G. R., R. D., No. 3748/28 of 18th December 1929 and 5th March 1930).

(9) The sale of masala country spirit in sealed bottles was allowed in all the districts of the Bombay Presidency proper (G. R., R. D., No. C-153 dated 28th May 1929).

(10) The concession rate of duty of Rs. 10 per proof gallon on Indian rum imported into the Bombay Presidency for supply to British and Indian regimental canteens was withdrawn (G. R., R. D., No. 9188/24 of 21st August 1929).

(11) The Dabhoda Distillery was closed and a bonded warehouse established at Dabhoda (G. R., R. D., No. 2450/28 dated 9th July 1929).

2. In this report, all statistics of revenue except those relating to "Gain on sale proceeds of Excise opium" and consumption relate to British districts only.

## CHAPTER II.

### COUNTRY SPIRIT.

3. *Sale strengths.*—The sale strengths prescribed for country spirit were 25° U.P., 30° U.P., 40° U.P. and 60° U.P. The sale of 25° U.P., revived from 1st April 1929, was allowed only at those border shops where the adjoining States were selling that strength. The remaining border shops were allowed to sell spirit of 30° U.P. The sale of spirit of a higher strength in border shops was necessary in the interests of the British revenue owing to the reluctance of the States concerned to reduce the strength of the spirit sold in their shops on the British border. The policy of discouraging the consumption of stronger spirit by restricting a certain number of shops in each district to the exclusive sale of weak spirit was continued in places where such a policy had proved successful. But in certain areas, where it was found that such a restriction had only driven people to stronger spirit illicitly distilled or imported, it was found necessary to remove the restrictions and allow the sale of stronger spirit at the shops.

4. *Receipts from still-head duty.*—The revenue from still-head duty amounted to Rs. 1,23,81,028 as against Rs. 1,22,83,293 in the previous year (Imperial Return I, col. 2) showing an increase of Rs. 5,97,735 due to the increased issues of country spirit as explained below.

5. *Vend and License fees.*—The receipts from fees for the right of retail vend of country spirit at shops slightly increased from Rs. 84,93,878 to Rs. 86,73,004 (Imperial Return I, col. 4). In some districts there was no competition at the auctions, but this was more than counterbalanced by keen competition in other districts. Of the total fees, Rs. 62,74,754 represent vend and Rs. 23,98,250 license fees.

6. *Revenue and consumption in the Akrani Tract.*—The country spirit arrangements in the Akrani continued to be managed by the Forest Department. The sale proceeds of spirit in the area amounted to Rs. 65,349 against Rs. 59,896 in the previous year. The consumption which is of 60° U.P. only amounted to 38,400 bulk gallons against 39,900 in the previous year. The decrease was due to the prevalence of small pox in epidemic form. In spite of the decrease in sales, there was an increase in the sale proceeds due to (1) the credit to the current year's accounts of the sale proceeds of 1,668 gallons of

spirit sold in March 1929 and (2) the increase in the selling price of liquor from annas four to annas five per bottle.

7. *Working of the contract supply system.*—The contract supply system, which was in force in Sankheda Mewas of Rewa Kantha Agency and in Mahi Kantha leased area, was discontinued from 1st April 1929 and departmental supplies from the Nasik Distillery were substituted.

The Nasik Distillery with its dependent warehouses continued to be managed departmentally and was worked satisfactorily.

8. *Working of the Mahura Flowers Act.*—Section 18-B of the Bombay Abkari Act relating to mahura flowers was extended to the whole of the Presidency proper, with effect from 5th March 1930, but no cases under the section were detected during the year except in those districts wherein that section was already in force.

Cases of illicit possession of mahura flowers increased from 119 in 1928-29 to 208 in 1929-30 in Kaira District and from 21 to 38 in Nasik District, while in Thana and Kolaba districts there was a decrease from 68 and 12 in 1928-29 to 33 and 7 respectively in 1929-30.

9. *Country spirit shops.*—The number of shops for the retail vend of country spirit increased slightly from 1,579 in 1928-29 to 1,607 in the year under report. Twenty-eight additional shops were opened or reopened on the recommendation of the Excise Advisory Committees concerned in places where they were required to meet the legitimate needs of the drinking public who would otherwise have resorted to liquor illicitly distilled or illicitly imported. Liquor shops existed at most of these places previously.

10. *Advisory Committees.*—The various Excise Advisory Committees in the Presidency proper held 417 meetings at which 348 recommendations were made. Of these, 161 recommendations were wholly accepted and 6 partially accepted. The hours of sale were the same as in the previous year, viz., opening hour 10-30 a.m. and closing hour 8 p.m. except in the following cases:—

(i) in Bombay, where it was 9 p.m.,

(ii) on the Railway Lines up to Thana on G. I. P. Railway, and Virar (Bassein Taluka) on the B. B. & C. I. Railway, where it was 8-30 p.m., and

(iii) in Poona City and Cantonment and Kirkee Cantonment where it was 7-30 p.m. from 1st September to 28th February.

11. *Consumption.*—Appendix A, column 11 shows in terms of proof gallons the sale of spirit at shops. There was an increase of 51,273 proof gallons or about 4 per cent. There was an increase in consumption in Ahmedabad, Surat, Bombay Suburban, Kanara, Dharwar, Belgaum, Bijapur, Satara, Poona, Nasik, and the East and West Khandesh districts and the Town and Island of Bombay. In all other districts there was a decrease in consumption. The noteworthy increases occurred in the Town and Island of Bombay (27,979), Poona (10,490), Dharwar (5,860), East Khandesh (4,934), Surat (3,499), Belgaum (3,167) and Bijapur (2,227). In Bombay the increase was due to the absence of industrial

trouble which had kept down consumption in the previous year. In the other districts, the increase was due to:—

(1) the lowering of selling prices by licensees in certain places on account of mutual competition;

(2) the large number of marriages celebrated amongst the drinking classes, with a view to evade the Sarda Act which came into force from 1st April 1930;

(3) the increase in the limit of possession of country spirit; and

(4) the sale of 25° U.P. at many border shops.

The main decreases in consumption were in Broach (4,581), the Panch Mahals (2,985) and Kolaba (2,524). These are attributed to the general trade depression and high selling prices. The following statement shows in respect of Bombay City and each district (1) the ration fixed for 1929-30; (2) the actual consumption in 1929-30 and 1928-29 and (3) the cases of illicit distillation, possession, sale and import detected in 1929-30 and 1928-29:—

Name of District	Ration in London proof gallons	Consumption in London proof gallons			Cases of illicit importation, possession, sale and distillation		
	1929-30	1929-30	1928-29	Increase or decrease	1929-30	1928-29	Increase or decrease
Ahmedabad ..	68,536	56,111	53,395	+2,716	313	176	+137

		15,366*	15,972*	-606*			
East Khandesh ..	68,888	51,303	46,369	+4,934	153	268	-115
	17,65,431	12,68,907	12,37,634	+51,273	4,761	5,273	-512

\*Akranj Mahal of the West Khandesh District.

The rations fixed for 1929-30 were the same as those for 1928-29, but the figures reported in the foregoing statement include in all cases the extra ration of 20 per cent. which is allowed to border shops in case of necessity. In spite of an increase in consumption as compared with the previous year, the total consumption fell below the allotted ration by 4,76,524 proof gallons. The general causes of the decrease are the poor economic condition of the people due to the general trade depression, illicit distillation in tracts where there are facilities for it, illicit importation of liquor from Indian States or foreign territories, low strength of country spirit, high selling prices and a growing taste among the drinking classes for cheap foreign spirit and beer, wherever available. Where cheap foreign spirit or beer was not easily obtainable, the ordinary consumer of country spirit had recourse to illicit supplies either distilled in the vicinity or imported from adjoining Indian States or foreign territories where country liquor is comparatively very cheap.

12. *Temperance activities.*—No temperance activities of note occurred in Bombay City. In the mofussil there were no temperance movements of any kind except in Surat, Broach, Kolaba, Ratnagiri and Ahmednagar districts. In Surat district, a vigorous anti-drink campaign was carried on as in the previous year, mainly for political reasons. A similar vigorous propaganda against drink was also carried on at the end of the year in Jambusar taluka of Broach District. In Kolaba, Ratnagiri and Ahmednagar districts, there were short-lived caste movements against drink. In Sholapur District, there was a little temperance activity which reduced the sales of toddy to a slight extent.

13. *Administration of Distilleries and Warehouses.*—There was one distillery and 38 bonded warehouses during the year under report.

The issues to retailers in British districts of duty paid spirits amounted to 1,282,418 proof gallons (exclusive of 15,669 proof gallons issued from the Dhadgaon Distillery to the Akrani Tract) against 1,234,882 proof gallons in the previous year.

14. *Retail sale in excess of prescribed limits.*—Permits for the sale of country spirit in excess of the prescribed limits were granted in all districts except Ratnagiri, Bijapur, Sholapur, Satara, Nasik and East Khandesh. The total quantity sold under such permits was 171 gallons of 25° U.P., 57 gallons of 30° U.P., 513 gallons of 40° U.P., and 20,581 gallons of 60° U.P., against 269 gallons of 30° U.P., 1,581 gallons of 40° U.P., and 22,267 gallons of 60° U.P., in the previous year. Similar permits were also granted for the sale of toddy under which 2,772, 20, 146 and 4,384 gallons were sold in Thana, Bombay Suburban, Sholapur and West Khandesh districts respectively.

---

### CHAPTER III.

#### TODDY.

15. *Revenue.*—The revenue under this head is derived from (1) tree tax and (2) fees for the retail sale of toddy. It amounted to Rs. 51,17,207

in the year under report as compared with Rs. 45,72,878 in the previous year (col. 11 of Imperial Return I), an increase of Rs. 5,44,329.

16. *Tree Tax.*—The receipts from tree tax amounted to Rs. 18,84,538 during the year under report as against Rs. 17,07,519 in the previous year (col. 8 of Imperial Return I). The increase of Rs. 1,77,019 is due to an increase in the number of trees tapped.

17. *Vend and License Fees.*—The revenue from vend fees was Rs. 28,82,857 and from license fees Rs. 3,49,812 amounting in all to Rs. 32,32,669 as against Rs. 28,65,359 in the preceding year (col. 9 of Imperial Return I). The increase of Rs. 3,67,310 is due to keen competition at the auctions in some districts.

18. *Trees licensed for tapping.*—The number of trees licensed for tapping for the sale of raw toddy during the year under report and in the previous year is given below (Appendix B) :—

Year	Cocoanut	Brab	Date and wild palm	Total
1928-29 .. ..	35,287	21,537	288,694	345,518
1929-30 .. ..	43,412	22,209	332,833	398,454
	+8,125	+672	+44,139	+52,936

Except for a slight decrease in Ahmedabad, the Panch Mahals, Kolaba, Kanara, Belgaum, Satara, Poona and Ahmednagar districts, there was an increase in all the other districts and in the Town and Island of Bombay. The most noticeable increases were in Surat (23,607) and Thana (17,124) districts. The increase in the number of trees tapped in Surat District is due mainly to the fact that several shops and booths, which had remained closed in the previous year for want of bids on account of the anti-drink movement, were disposed of in the year under report. The increase in the Thana District is due to the tapping of a larger number of trees for supply of toddy to Bombay.

19. *Toddy licenses.*—The licenses of different descriptions granted during the year and in the previous year were :—

Year	Domestic consumption	Treefoot booths	Shops	Hawking licenses	Total
1928-29 .. ..	10,593	3,194	1,044	15	14,846
1929-30 .. ..	10,110	3,173	1,046	....	14,329
	-483	-21	+2	-15	-517

The decrease in the total number of domestic consumption licenses is mainly due to a decrease of 1,040 such licenses in the Panch Mahals

district, though this decrease is partially counteracted by an increase in the number of such licenses in Surat district. The decrease in the number of domestic consumption licenses in Panch Mahals is due to the restrictions imposed on the grant of this class of licenses. The increase of 567 in Surat district is due to a return to toddy among the local people on account of its cheapness. Two new toddy shops, one in Thana district and the other in Bijapur district were opened during the year under report.

Hawking licenses were completely abolished with effect from 1st April 1929.

20. *Consumption.*—The fall of about 12 lakhs in consumption in the previous year has been retrieved and the total consumption shows an increase of 1,335,552 gallons which is shared by all the districts except Bombay, Ratnagiri, Kanara, Belgaum, Sholapur, Satara, Poona and Ahmednagar. The increase in the consumption of toddy occurred mainly in the districts of Thana (762,092 gallons) and Surat (548,575 gallons). The large increase in Thana district is due to the fact that in the year 1928-29 on account of the boycott of the toddy auction in Umbergaon Petha, there was an abnormal fall in the consumption of toddy. Similarly in Surat district, the increase is due to the fact that in the year 1928-29 many shops and booths had remained undisposed of for want of bids, and hence the consumption in that year showed a considerable decrease when compared with the consumption in 1927-28. In the year under review, almost all the shops and booths were disposed of, thus bringing the consumption to its normal condition. Celebration of a large number of marriages during the year on account of the Sarda Act is also to a large extent responsible for the increased consumption of toddy.

The decrease in the Town and Island of Bombay and in Ratnagiri district is more apparent than real. The fact that the recorded consumption of toddy shows a decrease in spite of an increase in the number of trees tapped is a clear evidence of the unreliable returns of sales maintained by licensees. The decrease in Ahmednagar and Sholapur districts is attributed to temperance activities, while in other districts it is due to high selling prices.

21. *Manufacture of Gul from sweet toddy.*—In Kanara district, 11 persons were permitted to manufacture gul as against 6 in the previous year. The number of trees tapped free of duty for this industry during the year under report was 119 as against 65 in the previous year. The increase in the number of licenses granted is due to encouragement given to this industry by the Agricultural Department.

No permission was granted for the manufacture of gul from sweet toddy in any other part of the Presidency.

#### CHAPTER IV.

##### FOREIGN LIQUOR INCLUDING THOSE OF INDIAN MANUFACTURE.

22. *Revenue.*—The revenue under this head chiefly consists of (1) duty on Indian-made liquors, (2) license fees for the sale of such liquors

as well as imported liquors, and (3) vend (pass) fees on foreign liquors :—

- (a) imported at the port of Bombay, or
- (b) imported into the Bombay Presidency from other parts of British India and Indian States and foreign possessions, or
- (c) manufactured in the Bombay Presidency.

During the year under review, the revenue under (1) amounted to Rs. 9,13,084 against Rs. 6,96,943 in the previous year (columns 12, 15, 19 and 20 of Imperial Return I). The increase is mainly due to increase in imports of Indian-made foreign liquor—spirits as well as beer. The revenue under (2) increased from Rs. 13,94,673 in the previous year to Rs. 20,01,128 (cols. 13, 16, 21 and 22 of Imperial Return I). The increase is due partly to the increased sales and partly to the fact that only nine months' fees assessed on sales were credited to the accounts of the preceding year, while twelve months' fees were credited to the accounts of the year under report. Vend (pass) fees have as usual been included in the column of license fees.

23. *Imports and consumption of foreign liquor.*—The gross imports of foreign liquor into Bombay City by sea compared with those of the previous year were as follows :—

Year	Fermented liquors (Liquid gallons)	Wines (Liquid gallons)	Potable spirits (proof gallons)	Denatured and per-fumed spirits (Liquid gallons)
1929-30 .. ..	15,38,524	70,125	2,35,434*	3,04,852
1928-29 .. ..	12,35,362	75,756	2,27,891†	2,63,584
Increase ..	+3,03,162	+3,369	+7,543	+41,268

Exports to other provinces are made from these imports as Bombay is a large distributing centre for the whole of India.

The following table gives the statistics of sales in the Presidency proper of foreign liquor in the year under report, compared with those in the previous year (Imperial Return IV, columns 9, 10, 11, 12, 13 and 15) :—

Year	Fermented liquors (Bulk gallons)	Wines (Bulk gallons)	Potable spirits (Bulk gallons)	Denatured spirits (Bulk gallons)
1929-30 .. ..	10,23,890	44,207	2,95,409	2,51,016
1928-29 .. ..	8,73,991	41,911	2,90,480	2,35,741
Increase ..	+1,49,908	+2,296	+4,929	+15,275

\* Includes 565 bulk gallons of liqueurs. † Includes 705 bulk gallons of liqueurs.

There was an all round increase in the consumption of foreign liquor. The sales of beer especially have increased. Foreign beers are fairly cheap and now that refrigerators have been installed in more shops, cold beer both in bulk and bottle is obtainable at all times. Beer is a more pleasant and palatable drink compared with adulterated toddy and country spirit, and the Bombay millhands have consequently taken to it. The increase in the consumption of wines and spirits is small and calls for no special remarks. The consumption of Indian-made spirits shows a large increase due to their cheapness as compared with imported spirit, the sales of which on this account show a slight decrease. The sales of denatured spirits show an increase in almost all districts, due mostly to the use of this spirit for stoves and in arts and industries. In some districts, the increase is to a certain extent attributed to the use of denatured spirit for potable purposes by the poorer classes owing to high price of and restrictions on country spirit. The imports of denatured spirit through the port of Bombay amounted to 299,123 gallons as against 2,56,711 gallons in the previous year. The major portion of the imports, 2,93,360 gallons, was from Java. 5,757 gallons were imported from Calcutta and 6 gallons only from the United Kingdom.

24. *Canteen Tenant Licenses.*—The number of canteen tenant licenses issued during the year under report was 31 as against 35 in the previous year. The total quantity of beer sold under these licenses was 170,394 gallons as against 158,755 gallons in the previous year. It has now been decided that canteen tenant licenses should, like other foreign liquor licenses, be assessed by license fees on actual sales. This change, however, has come into force from 1st April 1930 only.

25. Messrs. Kemp & Co., N. Powell & Co., Wright & Co., and M. J. Gajjar of Bombay, Wingate & Co. of Poona, and the Gujarat Chemical Works of Ahmedabad continued to manufacture spirituous medicinal and toilet preparations in bond at the concession rate of duty of Rs. 5 per proof gallon. Messrs. I. G. Gajjar & Co. of Bombay opened a new bonded Laboratory during the year under report for the manufacture of spirituous medicinal and toilet preparations. Medicinal and toilet preparations at the lower rate of duty were imported into Bombay from the following firms :—

- (1) The Alembic Chemical Works Co., Ltd., Baroda ;
- (2) The Bengal Chemical and Pharmaceutical Works, Calcutta ;
- (3) The Ranaghat Chemical Works, Calcutta ;
- (4) Dr. Bose's Laboratory, Calcutta ;
- (5) Dr. Burman's Laboratory, Calcutta ;
- (6) The Bhavnagar Chemical Works, Bhavnagar.

The sales of rectified spirit were 474 gallons as against 359 in the previous year (column 14 of Imperial Return IV). No accounts of medicated wines are required to be kept and so column 16 of Imperial Return IV is blank. Indian-made foreign spirit is manufactured at the

Gujarat Chemical Works at Ahmedabad, the Alembic Chemical Works Co. at Baroda and the Government Central Distillery at Nasik. The Gujarat Chemical Works supplied 24,964 proof gallons of duty-free rectified spirit to the Government Medical Stores, Bombay, as against 21,849 gallons in the preceding year. One hundred and forty gallons of denatured spirit were manufactured at the Gujarat Chemical Works as against 202 gallons in 1928-29.

26. *Licenses.*—The number of licenses for the sale of foreign liquor was 2,617 against 2,546 in the preceding year. The increase is mainly due to the grant of 77 temporary stall licenses over and above those granted in the preceding year. There were only slight increases and decreases under other classes of licenses.

Fifty licenses were issued for the manufacture of perfumed spirits, the same as in the previous year. The number of licenses for the manufacture of flavouring essences was 7 as against 6 in the preceding year.

## CHAPTER V.

### Intoxicating Drugs other than Opium.

#### HEMP DRUGS.

27. *Cultivation and outturn of ganja.*—Cultivation of ganja was not allowed during the year under report as there was a sufficient quantity to last for the year out of the previous years' stock.

28. *Issues from warehouses.*—The issues from the warehouses during the year under report and the year 1928-29 are contrasted below :—

	1928-29		1929-30	
	Ganja	Bhang	Ganja	Bhang
	Maunds	Maunds	Maunds	Maunds
Issued for sale in the Bombay Presidency .. .. .	955	200	922	206
Exports to Indian States .. .. .	81	30	88	36
Exports to other Provinces .. .. .	23	..	33	..
Exports to foreign countries .. .. .	..	..	10	..

29. *Fluctuations in consumption.*—The following table shows the consumption as compared with that of the previous year :—

Year	Ganja	Bhang
1928-29 .. .. .	32,881	8,943
1929-30 .. .. .	31,584	7,962

The decrease in the consumption of ganja was mainly in Bombay City and the districts of Poona, Sholapur, Ahmedabad and Nasik. In Bombay City, the decrease was mainly due to the diversion of ganja addicts to illicit charas, while in the districts it is attributed to high selling prices charged at the shops. In Satara, Bijapur, and East Khandesh districts, however, there was an increase in the consumption, which is attributed principally to low selling prices. In Satara district it was also due to the increase in the population of the labouring classes owing to construction works, and in Bijapur district it was partly due to the larger influx of fakirs, sadhus and pilgrims and also to a good season.

The small decrease in the total consumption of bhang calls for no remarks.

30. *Revenue*.—The revenue from intoxicating drugs is derived from (1) quantitative duties on (a) issues from warehouses and (b) imports from other provinces and (2) vend fees. The duty realised and the vend fees amounted to Rs. 12,14,107 and Rs. 7,57,345 respectively as compared with Rs. 12,90,314 and Rs. 7,48,682 respectively in the year 1928-29 (Imperial Return I, columns 31, 35 and 36).

31. *Vend licenses*.—The number of vend licenses in the year under report was 536 (Imperial Return III, columns 10 to 12 and 32 to 34) as against 534 in the year 1928-29. Of these 20 were wholesale and 516 retail. There was an increase in the number of shops by 2 due to (1) reopening a shop in the Sholapur district and (2) opening a new shop in the Bombay Suburban District.

#### COCAINE.

32. *Vend licenses*.—The licenses for the sale of cocaine for *bona fide* medical purposes numbered 771 during the year under report against 759 in 1928-29 (Imperial Return III, column 38).

33. *Imports and Issues in the Presidency*.—The quantity of cocaine and the allied drugs imported during the year amounted to 24 lbs. 2 ozs. 347 grs. (Avoirdupois standard weight) against 37 lbs. 2 ozs. 133 grs. in the previous year. The quantity sold under licenses was 16 lbs. 9 ozs. 206 grs. against 13 lbs. 3 ozs. 153 grs. The statistics of cocaine transactions called for in Government of India's letter No. 1324, dated 8th March 1922, Department of Commerce, are given below in the form approved in G. R. No. 4495, R. D., dated the 22nd August 1922 :—

Stock on 1st April 1929			Imports during the year			Total	Sales during the year			Closing balance on 31st March 1930				
Lbs.	Ozs.	Grs.	Lbs.	Ozs.	Grs.	Lbs.	Ozs.	Grs.	Lbs.	Ozs.	Grs.	Lbs.	Ozs.	Grs.
17	10	83	24	2	347	41	12	430	32	9	292	9	3	138

34. *Cocaine Cases*.—Ninety cases of illicit possession of cocaine were detected in the City of Bombay during the year under report against

39 during 1928-29. The reasons for the increase have been given in paragraph 50 below. The largest seizure of cocaine by the Excise Department during the year was 24,024 grains.

## CHAPTER VI.

### OPIUM.

35. *Realization from opium issued from depôts.*—Opium issued from the depôts realised Rs. 17,97,305 as shown in the District Treasury accounts. Of this sum Rs. 6,34,568 represented the prime cost paid to the Government of the United Provinces and the balance of Rs. 11,62,737 gain on sales as shown in columns 24 and 25 of Imperial Return I. From the latter figures the expenditure noted below has to be deducted:—

(1) Conveyance and packing charges of opium at Opium depôts in British districts .. .. .	Rs. 7,388
(2) Cost of maintenance of the Government Opium depôt at Sadra .. .. .	871
	8,259

The net profit to Government thus amounts to Rs. 11,54,478 (inclusive of duty) against Rs. 12,63,540 in the previous year, a decrease of Rs. 1,09,062 which is partly due to the transfer of the Commissioner's control over the Rajkot and Palanpur opium depôts to the Western India States Agency from 1st October 1928 and partly to the decrease in consumption. This decrease would have been still greater, but for a further decrease in the rate of cost price from Rs. 23-5-0 to Rs. 22-7-0 per seer from 1st April 1929.

36. *Sales in British districts.*—The total issues in British districts amounted to 21,350 seers against 22,126 seers in the previous year (column 17 of Imperial Return IV). The actual sales, however, were 21,091 seers against 22,039 seers in the previous year, a decrease of 948 seers or 4½ per cent due to the fall in the consumption in all districts except Kaira, Panch Mahals, Dharwar, Bijapur and Bombay Suburban districts. The decrease in these areas is attributed to trade depression and the high selling prices charged by licenses as a result of heavy vend fees which they had to pay on account of keen competition. In Bombay it is also partly due to propaganda against the opium habit and to illicit opium finding its way into Bombay and competing with licit opium, as the former can be had at a considerably cheaper price.

37. *Vend fees.*—The fees for retail vend in British districts amounted to Rs. 11,69,114 against Rs. 11,20,646 in the previous year (column 27 Imperial Return I). The increase of Rs. 48,468 was due to keener competition at the auctions.

38. *Retail shops and Medical Practitioners', Chemists and Druggists' Licenses.*—The total number of shops was 683 against 681 in the previous year (column 31 of Imperial Return III). The number of licenses held by medical practitioners chemists and druggists for the possession and sale of opium and its preparations decreased from 1,081 in the previous year to 1,070 (column 35 of Imperial Return III).

39. *Supplies to Indian States.*—The total quantity of opium supplied to Indian States was 7,053 seers against 6,137 seers in the previous year (Appendix "D").

40. *Manufacture and Issues in the Baroda State.*—The area under poppy cultivation in the Baroda State was 406 acres against 404 in the previous year. The opium in hand at the beginning of the year was 51,852 seers and that manufactured during the year 1,170 seers. The total issues to licensed dealers decreased from 6,155 seers to 5,734 seers. The stocks held at the end of the year were 46,168 seers exclusive of 1,120 seers on account of dryage.

41. *Total Excise opium revenue.*—The Excise opium revenue was Rs. 28,08,771 against Rs. 29,02,444 in the previous year, a decrease of Rs. 93,673. This was due to the decrease in consumption.

42. *Consumption of opium for veterinary or quasi-veterinary use.*—The quantity of opium used for veterinary or quasi-veterinary purpose during 1929-30 was 48 lbs. 12 ozs. 14 drs. and 11 grs. against 42 lbs. 4 ozs. and 10 grains in the previous year.

43. *Measures to check the administration of opium to children.*—The National Baby and Health Week Association, Bombay, was like last year active in warning mothers against the danger of drugging children with opium. The Association used magic lantern lectures, demonstrations of cinema films, exhibitions of models and posters and free distributions of vernacular leaflets on child welfare. These exhibitions took place in 130 towns and villages during the Baby Week celebrations and were witnessed by nearly 8,25,000 people. 72 centres were also supplied with popular literature on public health and child welfare. The lady Inspector of Factories also by private talks and lectures took every opportunity to warn the factory and mill-workers against the evils of administering opium to children. These activities have no doubt some instructive value and have probably contributed to a decline in the sales of opium.

## CHAPTER VII.

## FINANCIAL RESULTS.

44. *Revenue.*—The total gross realizations for the year (Imperial Return I) are contrasted below with those of the previous year:—

Item	Realizations in		Increase	Decrease
	1928-29	1929-30		
	Rs.	Rs.	Rs.	Rs.
(1) Country spirit ..	2,07,77,171	2,15,54,032	7,76,861	....
(2) Country fermented liquor ..	45,72,878	51,17,207	5,44,329	....
(3) Malt liquors ..	2,73,527	3,25,030	51,503	....
(4) Wines and spirits (Foreign spirits other than malt liquors, medicated wines and commercial spirits)	17,33,430	24,92,862	7,59,432	....
(5) Commercial spirits including medicated wines) ..	84,659	96,320	11,661	....
(6) Hemp drugs ..	20,39,334	19,71,711	....	67,623
(7) Opium ..	29,02,444*	28,08,771*	....	93,673
(8) Fines and forfeitures ..	8,847	11,069	2,222	....
(9) Miscellaneous ..	1,82,654	1,14,731	....	67,923
(10) Recoveries from Government commercial undertakings ..	12,35,306	12,29,633	....	5,673
Total ..	3,38,10,250	3,57,21,366	21,46,008	2,34,892
		Net increase ..	19,11,116	

\* Exclusive of license fees for opium shops in Indian States but inclusive of gain on sale proceeds of opium supplied to those States and to Baroda and Aden and the cost price of opium supplied to British districts.

Item 10 shows recoveries from Government commercial undertakings such as profits from the Distillery and realizations from the sale of old Distillery plant, etc.

45. *Expenditure.*—The expenditure for the year exclusive of (1) refunds (Rs. 2,28,627) and (2) compensation to (a) the Bombay Municipality for loss of revenue which it previously derived from shop licenses (Rs. 1,43,750) and (b) the District Local Boards in the Presidency in lieu of one anna cess on excise revenue which they were formerly allowed (Rs. 1,55,048) was Rs. 26,09,366 against Rs. 26,40,955 in the previous year. This figure of expenditure for the year 1929-30 includes the amount of Rs. 6,23,313 on account of price paid to the Government of India for opium supplied to the Department. It also includes the amount of Rs. 1,28,138 on account of investments in Government commercial undertakings. Till the year 1927-28, the amounts under these heads were not shown in the report. They have since been

included owing to the new method of accounting. The cost of opium is fully recouped from the sale of opium, and the investments in Government commercial undertakings are fully recouped from the working of the Distillery which yields a profit every year. The figures included under these heads in the previous year were Rs. 7,81,201 and Rs. 1,07,506 respectively. The gross expenditure this year including the refunds shown at (1) and (2) above amounted to Rs. 31,36,791 against the previous year's expenditure of Rs. 31,19,338. If the items relating to opium and investments are excluded being not really expenditure, the gross expenditure would be Rs. 23,85,340 as against Rs. 22,30,631 in the previous year which shows an increase of Rs. 1,54,709. The increase is due to an increase in grants of refunds during the year as against Rs. 1,79,585 in the previous year and to an increase in expenditure for establishment. The net revenue of the year thus increased by Rs. 17,56,407, i.e., from Rs. 315,79,619 in the previous year to Rs. 333,36,026 in the year under report.

46. *Recovery of Excise revenue by coercive processes.*—Coercive processes were resorted to for the recovery of excise revenue in 14 out of 21 districts of the Presidency proper, viz., Kaira Surat, Thana, Kolaba, Ratnagiri, Kanara, Dharwar, Belgaum, Bijapur, Sholapur, Poona, Nasik and East and West Khandesh. In some cases moveable and immoveable property had to be attached before arrears were recovered.

## CHAPTER VIII.

47. *Offences against the Abkari Law.*—The total number of cases detected was 6,116 against 6,407 in the preceding year. Of these, 5,259 related to liquor, 742 to hemp drugs and 115 to cocaine as against 5,749; 600 and 58 respectively in the previous year. Full details will be found in columns 8, 14 and 18 of Appendix "F". If the figures are deducted for East and West Khandesh, where for exceptional reasons given below there was a great decrease, the total offences in the remaining districts increased from 4,029 to 4,487.

48. *Fluctuations in liquor cases.*—Liquor cases decreased in the year under report by 490. Cases under illicit distillation declined from 3,719 to 3,291 the decrease being chiefly noticeable in West Khandesh (612) and East Khandesh (89) districts. The fall is not due to slackness of the Excise staff, but mainly to the vigorous campaign carried on by them in these two districts against the illicit distillers during recent years and to the severe sentences now inflicted by trying magistrates. To these reasons must be added the opening of some additional shops, the partial failure of the mahura crop and increased vigilance of the illicit distillers. Apart, however, from East and West Khandesh, the other districts show an increase in the total illicit distillation cases from 1,655 to 1,928.

Cases under "Illicit importation, exportation and transportation" decreased from 319 to 313 and those under illicit possession from 1,110

to 1,022. Cases under unlicensed sale increased from 125 to 135, while those under miscellaneous offences rose from 476 to 498.

49. *Fluctuations in Hemp Drugs cases.*—The number of cases relating to hemp drugs increased from 600 to 742, the increase being chiefly noticeable in the Town and Island of Bombay (100). The rise was due, as in the previous year, to large seizures of illicit charas in Bombay City.

50. *Fluctuations in Cocaine cases.*—Cases under cocaine increased from 58 to 115. The cocaine traffic is mainly confined to Bombay and the increase in the number of cases detected was due to the vigilance of the special excise staff posted to the cocaine area.

51. *Offences against Opium Law.*—Opium cases increased from 323 to 366. Of these, 333 were tried in British territory and 33 in the Indian States as against 295 and 28 respectively in the previous year (column 29 of Appendix "F"). Cases of illegal possession were 261 against 206, and those of manufacture and illegal sale respectively 1 and 19 against 8 and 22, in the previous year. Cases of illegal import were 66 against 72. The contraband opium seized amounted to 477 seers of which 453 seers were seized in British territory and 24 seers in Indian States.

52. *Fluctuations in cases of drunkenness.*—Convictions for drunkenness were 3,177 against 3,128 in the previous year (Appendix "G" columns 2 and 3). Of these, 2,046 occurred in Bombay City. Cases of drunkenness on licensed premises rose from 34 to 37.

#### THE EXCISE INTELLIGENCE BUREAU.

53. The Excise Intelligence Bureau continued to compile and disseminate useful information regarding the methods of smugglers and offences against the Excise and Opium Laws.

The Finger Print Branch of the Bureau received during the year 747 finger impression slips of excise offenders for search against 517 during the previous year. Previous convictions were traced in 182 instances compared with 127 in 1928-29. At the close of the year, the Branch had on record a collection of finger print slips of about 22,200 excise convicts.

#### GENERAL REMARKS.

54. There is an increase in the gross revenue for the year under report of Rs. 19,11,116. The increase is to a considerable extent only a recovery, as in 1928-29 there was a decrease of Rs. 10,80,927 from the gross revenue of 1927-28. The Government of Bombay by high taxation have kept down consumption. This is shown by the fact that in 1926-27, for example, average excise revenue per head in the Presidency proper, was Rs. 2, the highest figure in India except Coorg. The figure for all British India was annas 12 pies 7.

55. There has been an increase in toddy revenue, so also in the revenue from foreign liquor and country spirit. The only heads under which a decrease has occurred are intoxicating drugs and opium. Consumption of country spirit is still much below the ration, although it increased somewhat owing to the numerous marriages effected in anticipation of

the enforcement of the Sarda Act and to the increase in the limit of possession and transport. The prevalence of illicit distillation is still the main factor which operates against the consumption of licit liquor. Every encouragement has been given to the staff in the campaign against excise crime. It was found that in some districts rewards were given too sparingly. The whole system has been overhauled and definite instructions issued to all officers so that there may be uniformity in the granting of rewards in all districts.

56. The total number of cases detected during the year, *vide* Chapter VIII, has fallen, but if the figures of East and West Khandesh are deducted, there is again an increase.

57. In some districts, where with the approval of the Legislative Council, additional country spirit shops were opened or reopened, this along with other causes has helped greatly to reduce illicit distillation and has been an effective temperance measure. For example, in West Khandesh, where 12 shops were added, offences of illicit distillation, etc., have fallen by 630. This policy is undoubtedly sound for reducing both crime and the combined consumption of licit and illicit liquor. If the consumer has no shop at hand he will resort to illicit liquor, generally easily procurable in rural tracts, and consume more of it, as it is cheap, than he would of the shop liquor which is two or three times the price of the illicit. Also each shopkeeper acts in his own interest as a zealous preventive officer, giving information to the excise officers as to illicit distillation in the locality.

58. The increase in the number of hemp drugs and cocaine offences is noteworthy. The cocaine traffic in Bombay appears to be reviving though the staff are doing their best to suppress it. Illicit charas sales in Bombay are affecting both the hemp drugs and the opium revenue. Prohibition of licit charas was introduced in 1922-23, but has proved a complete failure and done great harm. Illicit charas in much larger quantities has taken the place of licit charas, and owing to its cheapness has diverted consumers from the much milder intoxicant, ganja. Without doubt, reintroduction of licit charas sales would be an effective temperance measure as it would result in less quantity of charas, licit and illicit combined, being consumed, as well as prevent the useless sacrifice of charas and ganja revenue.

59. The Mahura Flowers Act was applied to the whole Presidency by Government Notification No. 3748 '28 of 8th March 1930. As March is part of the vacation allowed under the Act, nothing tangible in the way of assisting the suppression of illicit distillation resulted during the year from the passing of the Act. It is hoped that the Act will produce some results during 1930-31. But to make the Act really effective, the vacation periods will require further reduction, and more restrictions on dealing in mahura will be required.

60. The close of the year was notable for the start of an intensive campaign against liquor in Surat district by Mr. Gandhi and his followers with the object of reducing Government excise revenue. Prohibition

of liquor is attempted not by moral persuasion but by the forcible measures of picketing shops, boycott of licensees and consumers, infliction of caste penalties, and cutting down toddy trees. Experience, however, of former movements of this kind shows that such compulsory abstinence imposed upon the public by fear of reprisals is inevitably only temporary and ends up in as much or more drinking in the long run, while in the meantime the consumers often resort to foreign or illicit liquor or the fiery and cheap denatured spirit available everywhere at the low price of annas 8 a quart bottle of 65° overproof strength. The temperance enthusiasts—and no doubt a number of people do take part in the movement from well-meaning motives—are thus unfortunately producing the opposite effect of what they intend.

61. The general position and problems of excise have been fully dealt with in the concluding portion of my report for 1927-28 and will not be repeated here. The position remains much the same. The general public, though their consumption is as a whole moderate, show no inclination to submit to measures of severe restriction, such as closing shops, and cutting down selling days and hours, intended to lead to ultimate prohibition, but successfully evade them. Apart from other considerations, the financial cost of successful prohibition would be staggering, judging from the fact that the unsuccessful attempt at prohibition in the United States of America now costs that country 232 crores a year in loss of excise revenue and 34 crores in preventive establishment, in all 266 crores, whereas the combined central and provincial revenues of India are only 192 crores.

62. The menial staff continued to work under disadvantageous conditions during the year as mileage and daily allowance were not restored to them. This greatly hampered them in detection work. The orders restoring it recently received will give great satisfaction to the staff and be an incentive to increased endeavour in the detection of cases.

63. Mr. S. D. Smith, C.I.E., Deputy Commissioner, has again rendered great assistance in the administration of the Department. The Superintendents have put in a good year's work under trying circumstances. Mr. Vakharia, Superintendent, Surat Sub-Division, has had the heaviest burden of them all, and Government have suitably acknowledged his services by conferring on him the title of Khan Bahadur. Mr. Gidney, Superintendent, Ahmedabad Sub-Division, brought off a successful capture of a large gang of opium smugglers who used camels.

Among the Inspectors, Mr. P. J. Hudson, Railway Lines, Bombay, detected some big cases in connection with the all-India smugglers of dangerous drugs who make Bombay a base of their extensive operations. Other Inspectors and officers of lower rank have also done very well.

J. P. BRANDER,  
Commissioner of Excise.

J. P. BRANDER,  
Commissioner of Excise.

No. P. 151 of 1930.

SIND SALT AND EXCISE DEPARTMENT.

SUPERINTENDENT'S OFFICE :

Karachi, dated 10th/11th August 1930.

From

H. M. KIRKWOOD, Esquire,  
Superintendent of Salt and Excise, Sind ;

To

THE COMMISSIONER IN SIND,  
Karachi.

*Subject.*—Excise Administration Report for the year 1929-30.

Sir,

*Introduction.*—I have the honour to submit the annual report on the Administration of the Excise (Abkari and Opium) department for the province of Sind for the financial year 1929-30.

2. *Personnel of the department.*—The charge of the department was held by Mr. H. M. Kirkwood, throughout the year.

*Reconstitution of charges.*—The Salt and Excise charges in Sind were reconstituted with effect from the 15th December 1929 by the Commissioner in Sind *vide* his Notification No. 217/VII-E, dated the 29th November 1929 in consequence of the reorganisation of the subordinate establishment of the Sind Salt and Excise department sanctioned by Government in their Resolution, Revenue Department, No. 1609-C, dated the 24th October 1929.

3. *Changes introduced during the year.*—The following were the principal administrative changes during the year :—

(a) Amendment of rules 39 to 41 of the Bombay Opium rules (Government Resolution, Revenue Department, No. 647/28, dated the 28th May 1929).

(b) Amendment of rule 19 of the rules regulating the import, export and transport of hemp drugs in the Province of Sind (Government Resolution, Revenue Department, No. 279-C., dated the 23rd May 1929).

(c) Amendment of the form of club license authorizing Assistant Inspectors of Excise to inspect the accounts and premises of clubs licensed for the sale of liquor (Government Resolution, Revenue Department, No. S. 80/13495, dated the 14th August 1929).

(d) Prohibition of the transmission of Indian hemp, including (1) Bhang, charas, ganja and (2) extract and tincture of Indian Hemp (*Cannabis Indica*) by ordinary post between any two places in British

India (Government Resolution, Revenue Department, No. 8636, dated the 16th August 1929).

(e) Levy of duty on rum of Indian manufacture imported from other parts of British India for supply to regimental canteens at the enhanced rate of duty, viz., Rs. 17-8-0 instead of at the reduced rate of Rs. 10 per proof gallon (Government Resolution, Revenue Department, No. 9188/24, dated the 21st August 1929).

(f) Amendment of the rules for the manufacture of spirituous medicinal and toilet preparations under bond (Commissioner in Sind's Notification No. 701-E, dated the 18th September 1929).

(g) Revision of bottling rates of masala liquor, viz., Rs. 1-8-0 for six quart bottles and Rs. 2-8-0 for a dozen pints (Government Resolution, Revenue Department, No. 6486/24, dated the 24th March 1930).

(h) Reduction of duty on charas from Rs. 60 to Rs. 20 per seer from 1st April 1929 (Government Resolution, Revenue Department, No. 1531/28, dated the 17th January 1929).

(i) Reduction of duty on ganja from Rs. 25 to Rs. 20 per seer from 1st April 1929 (Government Resolution, Revenue Department, No. 1531/28, dated the 17th January 1929).

(j) Maximum selling price of charas was fixed at Re. 0-12-0 per tola and minimum price of charas and ganja was reduced to As. 7 and 6 per tola respectively (Commissioner in Sind's No. 3916-VI-E, dated the 25th January 1929).

#### CONSUMPTION OF EXCISABLE ARTICLES.

4. *Foreign liquor (imports).*—The following table gives the imports into Karachi of foreign liquors during the last three years (including imports for the Punjab and other parts of India) as reported by the Collector of Customs in Sind :—

Year.	Fermented liquors.	Wines.	Liqueurs.	Spirits potable.	Spirits of wine (non-potable spirits).
	Gallons.	Gallons.	Gallons.	Gallons.	Gallons.
1927-28 ..	810,026	54,371	3,293	193,114	39,727
1928-29 ..	857,153	52,673	3,786	203,110	43,056
1929-30 ..	906,065	55,020	3,428	217,106	58,313
Variation ..	+48,912	+2,347	-358	+13,996	+15,257

The increase under fermented liquors is attributable to a growing demand both for bulk and bottled beer. The taste for beer is said to be spreading particularly among the labouring classes. It is reported that German beer, which was much in evidence in recent years, is losing ground. Large imports of French vermouth contributed to the increase of 2,347 gallons under wines. The small decrease under liqueurs needs no comment. The rise in imports of potable spirits is accounted for by larger imports of brandy, the consumption of which is said to have been stimulated by intense cold weather and Epidemic of Cholera. It is,

however, probable that with the continuous rise in the price of whisky, the consumer is taking more and more to brandy which is comparatively cheaper. The increase of 15,257 gallons under non-potable spirits is due to the fact that large quantities of rectified spirit were imported from Java from denaturation at the Karachi Customs House for export to other Provinces. Some of the traders in the Punjab who formerly obtained their supplies from Calcutta are now making their purchases at this Port.

*Foreign liquor consumption.*—For sales at licensed shops see Imperial return IV in which the figures for imported and locally manufactured liquor are classified separately. The bulk of the consumption was, as usual, in the towns of Karachi, Hyderabad, Sukkur and Shikarpur where the population is denser. Variations in consumption are shown in the subjoined table :—

Year.	Sale.			
	Fermented liquors (Bulk gallons).		Potable spirits (Proof gallons).	
	Imported.	Indian.	Imported.	Indian.
1928-29 .. ..	380,061	....	48,157	389
1929-30 .. ..	371,266	....	53,713	150
Variations .. ..	-8,795	....	+5,556	-239

Slight variation in the consumption of beer needs no comment. The increased sale of potable spirits is due to competition of cheap imported spirits with the local country spirit on account of high selling price of the latter. The decline in the consumption of Indian made spirits is due to the inferior quality as compared to the foreign spirit.

5. *Denatured spirit.*—There were no imports by sea of denatured spirit during the year. The sales at retail shops compare as follows with those of the two preceding years :—

Year.	Of foreign Origin gallons 50° O.P.	Of Indian Origin gallons 50° O.P.	Total gallons.
1927-28 .. ..	17,826	....	17,826
1928-29 .. ..	21,009	....	21,009
1929-30 .. ..	22,589	....	22,589
Variations .. ..	+1,580	....	+1,580

It has been found that the figures of 62,831 reported last year included also the sale of wholesale to Retail licensees. The correct figures of consumption by the public in the last year were 21,009 gallons as shown now. As compared to this the consumption of the year under report has increased by 1,580 gallons which is due to the more extended use of the denatured spirit for domestic use, industrial purposes and during

social functions when the use of incandescent lights are a feature of such occasions.

6. *Country spirit (Appendix A).*—The consumption of country spirit during the year compares as follows with that of the previous three years (the figures in columns 2 to 5 of Imperial return IV represent issues from Bonded Warehouses):—

District.	1926-27.	1927-28.	1928-29.	1929-30.	Variations, 1929-30.
	Pf. Gls.	Pf. Gls.	Pf. Gls.	Pf. Gls.	Pf. Gls.
Karachi	41,455	46,811	50,453	42,435	-8,018
Hyderabad	26,641	26,463	22,942	20,945	-1,997
Nawabshah	10,180	8,545	9,075	9,251	+ 176
Thar Parkar	4,512	3,822	4,828	4,322	- 506
Sukkur	12,169	13,346	12,854*	13,671	+ 817
Larkana	10,555	10,615	12,051	13,322	+1,271
Upper Sind Frontier.	4,339	4,150	4,541	4,115	- 426
Total ..	109,851	113,761	116,744	108,061	-8,683

\* The last year's consumption of Sukkur District† was 12,854 Pf. Gls. and it was incorrectly shown as 14,991 Pf. Gls.

There was a fall in the consumption in all Districts except Nawabshah, Sukkur and Larkana. The increase in Nawabshah is insignificant and needs no explanation while that of the other two districts is attributed to the prevalence of Cholera and the celebration of a large number of marriages having taken place in the end of the year in consequence of the passing of the Sarda Bill. The decrease of 8,018 proof gallons in Karachi District was the result of combination among the licensees who sold the minimum quantity for the maximum price and was partly compensated by an increase in the sales of imported spirits. In other districts, the decrease was due to the general trade depression, and unfavourable character of the year on account of abnormal rains and floods.

The per capita consumption (Appendix A, column 11) compares as follows with that of the previous three years:—

District.	1926-27.	1927-28.	1928-29.	1929-30.
	Drams L. P.	Drams L. P.	Drams L. P.	Drams L. P.
Karachi .. ..	3·67	4·15	4·47	3·76
Hyderabad .. ..	2·23	2·22	1·92	1·75
Nawabshah .. ..	1·17	0·98	1·04	1·06
Thar Parkar .. ..	0·55	0·46	0·58	0·52
Sukkur .. ..	1·14	1·26	1·21*	1·29
Larkana .. ..	0·85	0·85	0·97	1·07
Upper Sind Frontier ..	0·87	0·83	0·91	0·82
Total ..	1·61	1·66	1·71†	1·58

† See remarks below statement under paragraph 6.

7. *Toddy*.—Toddy was sold at Karachi (and its suburb malir), Kotri, Hyderabad and Sukkur. The sales during the year under report compare as follows with those of the previous three years:—

District.	1926-27.	1927-28.	1928-29.	1929-30.
	Gallons.	Gallons.	Gallons.	Gallons.
Karachi .. ..	15,788	17,793	14,734	19,318
Hyderabad (Town) .. ..	1,748	1,341	1,673	1,894
Sukkur (Town) .. ..	613	602	758	722
Total .. ..	18,149	19,736	17,165	21,934

A succession of seasonal rains in Karachi and Hyderabad improved the yield of toddy. The increased consumption in Karachi and Hyderabad is attributable to the diversion of consumers of country liquor to toddy which was sold at comparatively cheaper rate. The variation in Sukkur is too small to require an explanation.

8. *Opium*.—(5,096) Five thousand ninety-six seers of opium were sold as compared with 5,290 in the previous year and 5,297 in 1927-28. The decrease is particularly noticeable in the four Districts of Karachi, Hyderabad, Thar Parkar and Nawabshah and may be attributed to high selling prices and poverty of the consumers on account of unfavourable character of the season owing to abnormal rains and floods. Three ozs. 6 drams and 53 grs. of opium were used for veterinary or quasi-veterinary purposes during the year under report.

9. *Hemp Drugs—Ganja*.—The sales of ganja amounted to 500 seers as against 582 in the previous year. The small decrease of 82 seers, needs no remarks.

10. *Bhang*.—The sales of Bhang during the year were 72,613 as against 81,481 in the previous year, a decrease of 8,868 seers. The decrease occurred in all the districts and may be attributed to general economic depression and unfavourable character of the year on account of abnormal rains and floods.

11. *Charas*.—The sales of charas amounted to 6,964 seers as against 2,858 seers in the previous year. The remarkable increase in the sale of charas is the direct result of the reduction of its duty from Rs. 60 to Rs. 20 and the fixation of its maximum selling price at a low rate of 12 annas a tola during the year under report.

12. *Cocaine*.—The licenses for the sale of cocaine for *bona fide* medical purposes numbered 56 during the year under report as against 65 in 1928-29 (Imperial Return III, Column 38).

*Imports and issues in the Province*.—The quantity of cocaine imported during the year amounted to 3 lbs. 10 ozs. 219 grs. as against 4 lbs. 3 ozs. 74 grs. in the previous year. The quantity sold under license was

6 lbs. 6 ozs. 215 grs. against 4 lbs. 10 ozs. 340½ grs. The details of cocaine transactions are given below :—

Stock in hand during the beginning of the year.	Quantity imported.	Quantity confiscated.	Total.	Quantity consumed.	Closing balance.
Lbs. Ozs. Grs.	Lbs. Ozs. Grs.	Lbs. Ozs. Grs.	Lbs. Ozs. Grs.	Lbs. Ozs. Grs.	Lbs. Ozs. Grs.
4 14 253	3 10 219	..	9 0 472	6 9 207*	2 3 265

\* Of this quantity, 2 ozs. 472 grs. were exported to other Provinces in India.

The increase has occurred in Karachi and Hyderabad towns and it is accounted for by its use by the medical profession.

13. *Cocaine cases.*—One case of unlicensed sale and two of illicit possession of cocaine were detected at Karachi and Nawabshah during the year under report against two in 1928-29. The quantity of cocaine seized was 4 grains only.

#### REVENUE (IMPERIAL RETURN No. 1).

14. *Comparison with the previous years.*—The following statement contrasts the excise Revenue realised during 1929-30 with that of the previous four years :—

Head of Revenue.	1925-26.	1926-27.	1927-28.	1928-29.	1929-30.	Variations in 1929-30.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1. Foreign and other liquors excised as foreign.	4,52,432	3,51,205	4,76,058	5,23,299	5,30,629	+ 7,330
2. Country spirit.	22,23,087	21,86,064	23,30,481	23,46,437	21,75,829	-1,70,608
3. Toddy ..	10,350	5,199	4,769	5,854	7,952	+ 2,098
4. Opium ..	5,80,763	5,71,448	5,40,002	5,47,972	5,37,423	- 10,549
5. Intoxicating drugs.	7,83,656	7,13,488	7,17,067	6,84,583	6,27,205	- 57,378
6. Fines, forfeitures and miscellaneous.	2,10,702	2,31,021	4,51,829	5,03,857	4,78,184	- 25,673
Total ..	42,60,990	40,58,425	45,20,206	46,12,002	43,57,222	-2,54,780

The causes of the variations will be dealt with under the various heads :—

15. *Foreign liquors.*—The increase of Rs. 7,330 comprises :—

(1) A decrease of Rs. 2,158 in the realizations from duty on Indian made spirits imported from other provinces and an increase of Rs. 9,488, under fees due to (a) the higher fees fetched by the beer shops at the auction, (b) the larger collection of vend fee (pass fee) on imported potable spirits.

16. *Country spirit*.—The decrease of Rs. 1,70,608 comprises :—

(1) A decrease of Rs. 1,18,533 in the still head duty on account of decreased issues from the bonded Warehouses and (2) a decrease of Rs. 52,075 under vend fees owing to the absence of cut throat bids at the auction.

17. *Toddy*.—The increase of Rs. 2,098 is the result of higher bids offered for the right to vend toddy at the auction in Karachi and Sukkur.

18. *Opium*.—The decrease of Rs. 10,549 comprises :—

(1) A decrease of Rs. 19,156 under sale proceeds of Excise opium owing to less issues, and

(2) An increase of Rs. 8,607 under vend fees owing to cut throat bids offered at the auctions.

19. *Hemp Drugs*.—The decrease of Rs. 57,378 is made up of :—

(1) A decrease of Rs. 65,376 owing to less exports of charas to the Indian States and reduction in the rate of duty from Rs. 60 to Rs. 20 per seer.

(2) An increase of Rs. 7,841 in vend fees owing to cut throat bidding offered at the auction.

(3) An increase of Rs. 157 in the receipts of Warehouse dues.

20. *Miscellaneous*.—The decrease of Rs. 25,673 is mostly due to less receipts from the gain on the sale proceeds consequent on the fall in the issues of country spirit.

#### EXPENDITURE AND NET REVENUE.

21. *Expenditure*.—The total expenditure on the combined Salt and Excise Department in Sind exclusive of (1) refunds (Rs. 1,46,739) and (2) Compensation to District Local Boards (Rs. 24,920) amounted to Rs. 4,48,168 (Imperial Return II). The share of this which is chargeable to "6-Excise" compares as follows with that of the previous year :—

				Rs.
1928-29	..	..	..	3,49,839
1929-30	..	..	..	3,41,306
Decrease in 1929-30	..	..	..	8,533

The net decrease is explained as follows :—

*Decrease under* :—

	Rs.	
(1) Contingencies and special charges other than rewards.	339	Being an item of fluctuating nature calls for no remarks.
(2) Supplies and services.	4,125	Due to less expenditure incurred on the works and repairs.
(3) Cost of opium supplied to Excise Department.	9,629	Due to the reduction in the cost price from Rs. 23-5-0 to Rs. 22-7-0 per seer (G. R., R. D., No. 3746/24, dated the 27th November 1928).

Total .. 14,093

*Increase under :—*

	Rs.	
(1) Salaries of Establishment.	3	The increase is insignificant and calls for no remarks.
(2) Allowances ..	4,240	Though the item is of a fluctuating nature, the increase is due to the dismounted staff having been replaced by mounted one with a fixed conveyance allowance at Rs. 15 per mensem each.
(3) Rewards ..	1,317	Though the item is of a fluctuating nature, the increase is principally due to large seizures of the contraband.
Total ..	5,560	
Net decrease ..	8,533	

The decrease of Rs. 2,33,158 in the net revenue for the year under report is attributed to a decline in the realizations from duty on country spirit and on Indian made spirits imported from other Provinces. The lesser exports of charas to Indian States and the reduction in the rate of duty on the drugs from Rs. 60 to Rs. 20 per seer from 1st April 1930 were also largely responsible for the decrease.

22. *Recovery of Excise Revenue by coercive measures.*—During the year coercive process was resorted to for the recovery of arrears of vend fee in the case of one licensee in the Nawabshah District only.

## GENERAL REMARKS.

23. *Shops and licenses: Imperial Return III.*—The following important variations in the number of licenses issued for the sale of excisable articles took place during the year under report:—

Kind of license.	Increase.	De-crease.	Explanation.
Foreign liquor (Potable whole-sale).	..	3	Three licensees surrendered their licenses.
Denatured spirit (Wholesale)..	..	4	Five licenses not renewed in Karachi and one new license issued in Thar Parkar District.
Hotel license .. ..	1	..	One new Hotel license granted in Karachi.
Canteen license ..	1	..	One new license granted in Karachi.

Kind of license.	Increase.	Decrease.	Explanation.
Rectified spirit and medicated wines (Druggists permits).	5*	..	One new license granted in Hyderabad District and four in Karachi District.
Opium and its preparations for medical purpose.	..	4	Four licenses not renewed in Karachi.
Morphia (special Druggists permits).	..	6	Six licenses not renewed in Karachi.
Cocaine .. .. .	..	9	Five licenses not renewed in Karachi. One in Nawabshah, two in Thar Parkar, one in Larkana and one in Upper Sind Frontier and one new license granted in Hyderabad.

\* Note.—24 shown against rectified spirit and medicated wines licenses of Sukkur District in the previous year included 16 essence licenses.

Three licenses for the manufacture of perfumes were issued in Karachi town and 11 licenses for the sale of essences in Sukkur and Larkana Districts during the year.

Note.—This information is supplied in accordance with Government Memorandum, R. D., No. 4942-C/24, dated 8th May 1929.

24. *Excise crime (Appendix F).*—The total number of cases detected was 125 as against 477 in the preceding year. Of these 114 related to liquor, 237 to Hemp Drugs, 3 to cocaine as against 123,275 and 2 respectively in the previous year. Full details will be found in columns 8, 14, and 18 of Appendix F.

The number of offences relating to liquor fell by 9·7 important cases of Kelat spirit were detected during the year, the quantity seized being 106 gallons which include 3 big seizures of 48, 20 and 18 gallons the former two in Larkana and the latter in Upper Sind frontier Districts. There has been no doubt a falling off in the number of cases relating to Hemp Drugs but the total quantity of Kelat bhang seized during the year was 15 maunds and 17 seers which included 3 important seizures of 7 maunds and 13 seers, 6 maunds and 18 seers, and 3 maunds and 35 seers respectively made in the Larkana District besides unprecedented seizure of 1 maund 24 seers of charas in the Sukkur District. Several other cases of charas were also detected involving a seizure of 26 seers and 23 tolas in the aggregate. The number of hemp plants seized in 8 cases of bhang cultivation was 799.

The slight decrease in the detection of opium cases during the year calls for no remarks. The contraband opium seized during the year under report amounted to 4 seers and 35½ tolas.

Two cases of illicit possession and sale of cocaine and one case of illicit possession were detected by the Excise staff at Karachi and Nawabshah respectively. No case of opium smoking was brought to light during the year.

A fall in the total number of cases may probably be due to the vigilance of the Excise staff and deterrent punishment awarded to the gang of

notorious smugglers concerned in the unlawful traffic of excisable articles.

25. *Hemp drugs cultivation and Warehouse transactions: (Appendix C).*—The cultivation of bhang was permitted in Deh Bubak of the Sehwan taluka as usual. No necessity for hiring private godowns arose as the accommodation available in the Hemp Drugs Warehouse, Bubak was sufficient for the storage of the entire stock. The figures shown in column 5 of the appendix represent the area sown during the year, the crop from which will be brought to account in the return of 1930-31. The outturn of the crop sowed during the year cannot therefore be given but the following was the produce of the previous year's sowings warehoused in 1929-30 as compared with that of the previous year:—

Year.	Quantity of bhang brought to account.	Area from which produced.	Outturn per acre.	
			Mds.	Mds. seers.
1928-29 .. ..	1,228	(Shown in 1927-28 50 acres).	24	22
1929-30 .. ..	2,377	(Sown in 1928-29 80 acres).	29	28

A force of 7 chowkidars was employed to guard the fields under Bhang cultivation at Bubak.

Charas and Ganja were imported in bond from Punjab and Ahmednagar respectively for consumption in Sind. The details of imports of hemp drugs are given in Appendix C.

26. *Supply of country spirit.*—The supply of country spirit was obtained from the Government Distillery at Kotri. The Distillery worked for 9 months and 1 day. It was closed for the overhauling of the plant and repairs for 2 months and 29 days. The coffee patent still continued to work, satisfactorily. The outturn per maund of molasses which was the only base used was the same as reported last year, viz. 3·9 gallons L.P. The low outturn is reported to be due to the inferior quality of molasses received from Batavia.

Extra superior flavoured spirit (Masala liquor) was manufactured in the steam heated pot still and issued in sealed bottles. It is of three descriptions, viz. Cardamun, Orange and Rose. The total quantity of spirit manufactured during the year ending 31st March 1930 was:—

	Gallons (L.P.)
Plain .. ..	96,091
Ordinary flavoured .. ..	27,226
Extra superior flavoured .. ..	44,108
Rectified spirit .. ..	1,918
Total .. ..	169,343

The rates at which different kinds of country spirit are supplied by the Distillery contractors are shown below :—

Rates per L.P. gallon.	Rs.	a.	p.		
Plain	..	1	13	0	Government Resolution, Revenue Department, No. 65-C, dated the 25th July 1924.
Flavoured ordinary	..	1	14	0	
Superior (quarts)	..	3	5	10	Government Resolution, Revenue Department, No. 6486/24 dated the 7th June 1926.
Superior (Pints)	..	4	3	2	
Extra superior (quarts)	..	3	12	10	
Extra superior (Pints)	..	4	10	2	

The spirit is distributed to retail shops through the Warehouses at Kotri, Karachi and Sukkur. The first Warehouse receives its requirements by transfer either from the Distillery spirit store or direct from the receiver ; the other two are supplied with spirit in bond. The stock of spirit at the Distillery and the Warehouses at the end of the year amounted to 58,264 gallons (L.P.) equal to about 6 months' demand. Of the total issues of 963 bulk gallons of rectified spirit during the year, 843 gallons were issued at the concession rate of duty (Rs. 5 per proof gallon) to local chemists for the manufacture of spirituous and toilet preparations, 100 gallons at the full rate of duty, 10 gallons free of duty and 10 in bond. Rs. 320 were realized as fees for Excise supervision over the manufacture of these preparations.

27. *Toddy supply arrangements.*—The trees are obtained on lease by the licensees from private owners. A succession of seasonal rains improved the yield of toddy and the increased consumption was due to the high prices of country liquor.

28. *Drunkennes.*—The number of convictions for drunkenness during the year under report was 26 as against 25 in the previous year (Appendix G column 3).

29. *Hours of sales at liquor shops.*—No change took place in the hours of sale at the liquor shops in Sind except that in the case of country liquor shop at Hyderabad midday closing was introduced from 1 to 3 p.m. (Commissioner in Sind's No. 3916/VI-E. dated 8th January 1929.)

30. *Management of licensed shops.*—Seventy-nine cases of various breaches of license conditions were reported during the year as compared with 69 last year. In 42 cases the licensees were dealt with under section 55-A of the Bombay Abkari Act, in 3 cases they were black listed and in 29 cases they were let off with a warning. In one case the licensee was prosecuted and convicted. Four opium licensees were fined by the Collectors for breach of their license conditions.

31. *Excise Advisory Committee.*—The number of Excise Advisory Committees existing in the province is 39. The activities of Advisory Committees were mostly confined to suggestions as to the reduction in the number of shops for the sale of liquor, their location and the

restriction of the hours of sale. The action taken on the important recommendations is summarised below :—

(i) *The Excise Advisory Committee, Hyderabad.*—On the recommendation of the Committee the midday closing of country liquor shops, Hyderabad town from 1 p.m. to 3 p.m. was sanctioned.

(ii) *The Excise Advisory Committee, Shahdadpur.*—The recommendations of this Committee were :—

(a) that a foreign liquor retail “off” shop be opened at Shahdadpur;

(b) that liquor shops should remain closed on Guru Nanik’s birthday;

(c) that the issue strength of country spirit of 25° U.P. should be raised to 15° U.P.

(iii) *The Excise Advisory Committee, Tando Adam.*—The recommendations of this Committee were :—

(a) that liquor shops be closed on Guru Nanik’s birthday;

(b) that the issue strength of country liquor should be raised to 15° U.P.

None of the recommendations of the above two Committees was accepted, *vide* Commissioner in Sind’s Memorandum No. 3916/VII-E, dated the 23rd December 1929.

There is nothing of any special interest to mention as regards the other Excise Advisory Committees.

32. *Temperance movements.*—No temperance activities of note occurred, during the year.

33. *Sind Excise Intelligence Bureau.*—The Sind Excise Intelligence Bureau which is under the supervision of the Deputy Superintendent of Salt and Excise, Karachi Town, continued to compile and disseminate useful information regarding methods of smugglers and offences against the Excise and Opium laws. There were 30 issues of the Excise Supplement to the *Sind Police Gazette* during the year as against 34 in the previous year.

34. *Administration of opium to Children.*—The practice of administering opium to children is not common in Sind. Villagers and panchayats were informed by Excise officers, as opportunities offered, of the evil effects of the habit and were advised to abstain from it.

35. Mr. Burhankhan Ismailkhan Lodi, Deputy Superintendent of Salt and Excise, Lower Sind, showed special skill in bringing to light two important cases of illicit distillation in Hyderabad. Also the Excise Officers, Messrs. W. K. Talpur, Excise Inspector, Rohri, Harjasrai G. Bhatia, Assistant Excise Inspector, Jacobabad and Abdul Razaqkhan Sher Zaman Khan, Assistant Excise Inspector, Kambar Circle, deserve special mention for their good detection work done during the year. Mr. Abdul Razaqkhan died in February 1930 and in him the department has lost a capable and energetic detective officer. Departmental

enquiries were held into the conduct of two Excise Officers of whom one was reduced and in the case of the other, the decision of the Commissioner in Sind is awaited. Besides one Assistant Excise Inspector is being prosecuted in court of law. The work of the rest of the staff has been generally satisfactory.

36. The following statements accompany :—

Appendices A, A(a), C, E, F, G, Provincial Statements A and B (Appendices H and I), Appendix J and Imperial Returns I to V.

I have the honour to be,

Sir,

Your most obedient servant,

(Signed) H. M. KIRKWOOD,  
Superintendent of Salt and Excise.

No. P.-475-E.

## GENERAL DEPARTMENT.

OFFICE OF THE COMMISSIONER IN SIND.

Government House, Karachi, 23rd September 1930.

*Subject.*—Excise Administration Report for the year 1929-30.

## Memorandum.

The Commissioner in Sind has the honour to forward the report submitted by the Superintendent of Salt and Excise, Sind, on the administration of the Sind Excise Department for the year 1929-30.

2. The consumption of country spirit fell from 119,000 to 110,000 Country spirit. proof gallons. An increase is noticeable in the Nawabshah, Sukkur and Larkana Districts which is attributed to the prevalence of cholera and the celebration of a large number of marriages at the close of the year owing to the passing of the Sarda Bill. The Karachi, Hyderabad, Thar Parkar and Upper Sind Districts are responsible for a decrease of 8,018, 1,997, 506 and 426 gallons, respectively. In Karachi District the decrease is attributed to combination among the licensees and in the other districts it is due to the general trade depression and the unfavourable character of the year on account of heavy rains and floods.

3. There was an increase of 81,000 gallons in the imports by sea of Foreign liquor. fermented liquors, wines and spirits—potable and non-potable. The increase is accounted for by large imports of (1) bulk and bottled beer, the consumption of which has increased among the labour classes, (2) vermouth from France, (3) brandy on account of intense cold weather and the prevalence of cholera; in the case of non-potable spirits increase is shown on account of rectified spirit imported from Java for denaturation at the Karachi Customs House for export to the Punjab and other Provinces.

The consumption in the Province fell by 9,000 gallons under fermented liquors and rose by 5,500 gallons in the case of potable spirits. The increased sale is due to competition of cheap imported spirit with the local country spirit on account of the high selling price of the latter.

4. The consumption of intoxicating drugs during the year under Intoxicating drugs. report and the previous two years was as under :—

Year.	Bhang.	Charas.	Ganja.
	Seers.	Seers.	Seers.
1927-28 .. .. .	80,300	3,000	800
1928-29 .. .. .	81,500	2,800	600
1929-30 .. .. .	72,700	7,000	500

The decrease in the consumption of Bhang (viz. 8,800 seers) which occurred in all districts is due to general economic depression and to abnormal rains and floods.

The remarkable increase in the consumption of Charas (viz., 4,000 seers) is the result of the reduction of its duty from Rs. 60 to Rs. 20 and the fixation of its maximum selling price at a low rate of 12 annas a tola during the year under report.

5. The consumption of toddy rose from 17,000 gallons in the previous year to 22,000 during the year under report. The increase is attributed partly to a succession of seasonal rains in Karachi and Hyderabad and partly to its cheapness in comparison with country liquor.

6. The consumption of opium declined by 19½ seers. The decrease is ascribed to the high selling price and the comparative poverty of consumers.

7. The gross revenue of the Department collected in the Province during the year under report amounted to Rs. 43,57,000 as against Rs. 46,12,000 in the previous year. The net revenue after deducting the total expenditure debitable to 6, Excise amounted to Rs. 38,70,000 showing a decrease of 2,32,000 due to short realization from—

- (1) Still head duty and Vend fees of country spirit,
- (2) Sale proceeds of Excise opium,
- (3) Smaller exports of charas to Indian States and reduction of the rate of duty from Rs. 60 to Rs. 20 per seer, and
- (4) Lower receipts from gain on the sale proceeds owing to the fall in issue of country spirit.

8. There has been a decline in the number of crimes detected, as will be clear from the sub-joined statement:—

Year.	Offences detected.				
	Liquor.	Intoxi- cating drugs.	Cocaine.	Opium.	Total.
1927-28 . . . . .	139	338	1	124	602
1928-29 . . . . .	123	275	2	77	477
1929-30 . . . . .	114	237	3	71	425

The decrease is attributed to vigilance of Excise staff and deterrent punishments awarded. Eleven important seizures—seven cases of Kalat spirit, three of Kalat bhang and one of charas were made during the year. The quantity of each article seized was 106 gallons, 15 maunds and 17 seers and 1 maund and 24 seers, respectively.

9. *General.*—The Department continued to be administered in an efficient manner by Mr. Kirkwood throughout the year.

G. A. THOMAS,  
Commissioner in Sind.

To

The Chief Secretary to Government,  
Revenue Department, Bombay.

APPENDIX A.

Statement showing the consumption of country spirit in proof gallons and the rate per head of the population in (1) Urban areas, (2) Rural areas and (3) each district of the Province of Sind during the year 1929-30.

Serial No.	District.	District Head Quarters towns and towns of 10,000 population or over.				Rural areas (i.e., districts excluding the towns shown in columns 8 to 6).				Total for the whole District.		Total population of the District.

H. M. KIRKWOOD,  
Superintendent of Salt and Excise, Sind.

No. 559 of 1930.

SALT AND EXCISE OFFICE :  
Aden, 1st September 1930.

From

CAPTAIN J. R. L. BRADSHAW,  
Collector of Salt and Excise,  
Aden ;

To

THE COMMISSIONER OF SALT AND EXCISE,  
Aden.

*Subject.—*

Sir,

I have the honour to submit herewith a Report on the Administration of the Excise Department in Aden and Perim for the official year 1929-30.

I have the honour to be,

Sir,

Your most obedient servant,

J. R. L. BRADSHAW,  
Captain,  
Collector of Salt and Excise, Aden.

REPORT ON THE ADMINISTRATION OF THE EXCISE  
DEPARTMENT IN ADEN AND PERIM FOR  
THE OFFICIAL YEAR 1929-30.

*I.—Constitution of the Department and System of Administration.*

There have been no changes in the constitution of the Department, and the system of administration has remained unaltered. The work of the Excise Department at Perim is carried out as usual by the local Police under the Government Agent.

*II.—Financial Results of the Years Administration.*

2. The principal sources of excise revenue are detailed in the appended statement—Appendix I—in which the realizations of the year under report are contrasted with those of 1928-29. The net receipts including the cost price of opium amounted to Rs. 2,02,389 against Rs. 2,26,638 in preceding year showing a decrease of Rs. 24,249. The decrease in duty on “Foreign liquors” is chiefly due to:—

- (1) The replacement of about 2,500 troops by 650 at present;
- (2) Prevalence of small-pox for over five months; and
- (3) The closing of the port on that account for over two months.

The total expenditure on account of establishment and contingent charges amounted to Rs. 21,088 against Rs. 19,480 in the previous year as shown below:—

Items.	Amounts.	
	1928-29.	1929-30.
	Rs.	Rs.
Establishment ... ..	18,208	19,812
Contract contingencies ... ..	1,119	1,120
Countersigned contingencies ... ..	153	156
Total ...	19,480	21,088

*III.—Imported Foreign Liquors.*

3. Sixteen licenses were issued at Aden for the sale of foreign liquors, 4 licenses for the sale of foreign liquors under “Military Tenant System”, 8 licenses for the sale of foreign and Indian made essences, 10 licenses for the sale of denatured spirits, 9 club licenses for the sale of foreign liquors, potable spirits and malt liquors of Indian manufacture, 2 licenses for the sale of country liquor, 2 licenses for the sale of hemp drugs, 2 licenses for the sale of opium, 2 licenses for the sale of cocaine (chemists) and 8 licenses for

the sale of dangerous drugs (medical practitioners). At Perim one license was issued for the sale of foreign liquors.

The details of the quantities of imported foreign wines, spirits and malt liquors passed for consumption in Aden and Perim, respectively, during the year under report and the previous year are shown in Appendix II.

#### IV.—Country Liquor.

4. The total quantity of country liquor manufactured from dates and issued for consumption in Aden during the year under review and the previous year is shown in the following tabular statement:—

Items.	1928-29.	1929-30.
	Gls.	Gls.
Date liquor (50° U.P.) ... ..	8,700	8,145
Date liquor (30° U.P.) ... ..	300	332
Total in terms of 50° U.P. ...	9,120	8,609-800

#### V.—Intoxicating Drugs.

5. The quantity of Intoxicating drugs other than opium consumed in the Settlement of Aden during the year 1929-30 and the previous year is as under:—

District.	Ganja.		Bhang.	
	1928-29.	1929-30.	1928-29.	1929-30.
	Srs. T.	Srs. T.	Srs. T.	Srs. T.
Aden and Shaikh Othman ... ..	79 19	40 12	0 63	0 64
Perim ... ..	.....	.....	.....	.....

The fall in the consumption of hemp drugs is mainly attributable to the removal of the Indian troops from Aden.

#### VI.—Cocaine.

6. The cocaine transactions during the year are shown in Appendix III appended to this report. Balance on 31st March 1930 was 3,362 grains.

#### VII.—Opium.

7. Forty-four seers and thirteen tolas of excise opium were sold by the contractor during the year under report against 39 seers and 65 tolas in the preceding year. The license fee for the retail vend of opium and the gain on sale of opium are shown in Appendix I, *vide* items 7 and 8. The details of opium transactions are given in the appended statement—Appendix III.

8. No quantities of opium were issued in 1929-30 for veterinary or quasi-veterinary purposes, *vide* G. R., R. D., No. 3194/24, dated 3rd April 1925.

*VIII.—Incidence of Taxation.*

9. The incidence of Abkari taxation per head of population for the year 1929-30 is contrasted in the following statement with that of the previous year :—

District.	Population as per Census of 1921.	1928-29.		1929-30.	
		Realiza-tions.	Incidence of taxation per head.	Realiza-tions.	Incidence of taxation per head.
		Rs.	Rs. a. p.	Rs.	Rs. a. p.
Aden ... ..	54,497	2,21,538	4 1 1	1,96,544	3 9 8
Perim ... ..	2,070	5,100	2 7 5	5,845	2 13 2
Total ... ..	56,567	2,26,638	4 0 1	2,02,389	3 9 3

*IX.—Offences.*

10. During the year under report sixteen cases of illicit importation of liquor and perfumed spirits and three cases of illicit sale of liquor and hemp drugs were detected against twelve cases of illicit importation of liquor and perfumed spirits and three cases of illicit sale of liquor and hemp drugs in 1928-29.

*X.—Head of Department.*

11. The following officers held charge of the office of the Collector of Abkari during the year :—

Captain F. E. Laughton, and  
Colonel B. R. Reilly, C.I.E., O.B.E.

J. R. L. BRADSHAW,  
Captain,  
Collector of Salt and Excise, Aden.

No. A/476-5350.

THE RESIDENCY :  
Aden, 13th September 1930.

Submitted to Government in the Revenue Department, Bombay.

(Signed) B. R. REILLY,  
Acting Resident and Commander-in-Chief,  
Aden.

J. R. L. BRADSHAW,

Captain,

Collector of Salt and Excise, Aden.

*Annual Reports.*

Reports on the administration of the Excise Department in the Bombay Presidency, including Sind and Aden, for the financial year 1929-30.

## GOVERNMENT OF BOMBAY.

## REVENUE DEPARTMENT.

Resolution No. P. 55/282.

Bombay Castle, 20th April 1931.

*Read Reports on the administration of the Excise Department in the Bombay Presidency, including Sind and Aden, for the year 1929-30 submitted by the Commissioner of Excise, the Commissioner in Sind and the Resident and Commander-in-Chief, Aden.*

RESOLUTION.—In the Presidency (excluding Sind) there was an increase during 1929-30 of 51,300 proof gallons in the consumption of country spirit as compared with the preceding year. The increase occurred in the districts of Ahmedabad, Surat, Bombay Suburban, Kanara, Dharwar, Belgaum, Bijapur, Satara, Poona, Nasik and East and West Khandesh and the Town and Island of Bombay. The remaining districts showed a decrease in consumption. In Bombay the increase was due to the absence of industrial trouble which had reduced consumption in the previous year. In other places the increase was due to (1) the lowering of selling prices by licensees in certain places on account of competition, (2) the large number of marriages celebrated amongst the drinking classes with a view to evading the Sarda Act which came into force from 1st April 1930, (3) the increase in the limit of possession of country spirit and (4) the sale of 25° U.P. spirit at many border shops. The main decreases in consumption were in the districts of Broach, the Panch Mahals, Kolaba and Ahmednagar and are ascribed to general trade depression and high selling prices. The rations fixed for the year 1929-30 were the same as those for the year 1928-29, but the former include in all cases the extra ration of 20 per cent. allowed to border shops in case of necessity. In spite of an increase in consumption as compared with the previous year, the total consumption fell below the allotted ration by 476,500 proof gallons. In Sind the consumption of country spirit decreased from 116,700 proof gallons in 1928-29 to 108,100 proof gallons in 1929-30. In the districts of Nawabshah, Sukkur and Larkana an increase in consumption is attributed to the prevalence of cholera and the celebration of an unusually large number of marriages

at the close of the year owing to the passing of the Sarda Act. The decrease in the district of Karachi was due to a combination among the licensees, while that in the districts of Hyderabad, Thar Parkar and Upper Sind Frontier was the result of the general trade depression and the unfavourable character of the year on account of heavy rains and floods.

2. In the Presidency (excluding Sind) the number of shops for the retail vend of country spirit increased from 1,579 in 1928-29 to 1,607 in the year under report. Twenty-eight additional shops were opened or reopened on the recommendation of the Excise Advisory Committees concerned in places where they were required to meet the legitimate needs of the drinking public. The number of shops in Sind remained stationary.

3. The revenue from country spirit (i.e., still-head duty, license and vend fees) in the Presidency (excluding Sind) increased from Rs. 2,07,77,000 to Rs. 2,15,54,000 while in Sind it decreased from Rs. 23,46,000 to Rs. 21,76,000. For the whole Presidency therefore there was an increase of Rs. 6,07,000.

4. The consumption of toddy in the Presidency (excluding Sind) increased by 1,335,600 gallons and in Sind by 4,800 gallons. The number of trees tapped in the Presidency (excluding Sind) increased by 52,900 and the number of licenses decreased by 517. The increase in consumption is shared by all the districts except Ratnagiri, Kanara, Belgaum, Sholapur, Satara, Poona and Ahmednagar and the Town and Island of Bombay. The increase of 762,100 gallons in consumption and of 17,124 in the number of trees tapped in the Thana District was due to the fact that in the previous year on account of the boycott of the toddy auctions in the Umbergaon Petha there was an abnormal fall in consumption as also in the number of trees tapped. The increase in consumption of 548,600 gallons and of 23,607 in the number of trees tapped in the Surat District was due to the fact that in the year 1928-29 many shops and booths had remained undisposed of for want of bids, resulting in a considerable decrease in consumption as compared with that of 1927-28. The celebration of a large number of marriages during the year on account of the passing of the Sarda Act was also responsible for increased consumption. The decrease in the number of licenses in spite of the rise in consumption was mainly due to the decrease in the number of domestic consumption licenses in the Panch Mahals District owing to restrictions imposed on their grant. In Sind the increase in consumption was caused partly by a succession of seasonal rains in Karachi and Hyderabad and partly by the diversion of consumers of country spirit to toddy which was sold at a cheaper rate. The total revenue from toddy increased from Rs. 45,79,000 to Rs. 51,25,000.

5. There was an all-round increase in the consumption of foreign liquor. The imports increased by 355,342 gallons in the Presidency other than Sind and by 80,154 gallons in Sind. A large part of the imports is, however, exported to other provinces, and the figures of sales,

as indicating consumption, are alone important. These show an increase in consumption. The notable increase in the sales of fermented liquor, i.e., 149,900 gallons, in the Presidency (excluding Sind) is explained by the popularity of cheap foreign beers among the Bombay millhands. The consumption of Indian-made spirits in the Presidency other than Sind showed a large increase due to their cheapness as compared with imported spirit. The sales of denatured spirits show an increase of 16,855 bulk gallons, due mostly to the use of this spirit for stoves and in arts and industries. In some districts the increase is attributed to the use of denatured spirit for potable purposes by the poorer classes owing to high price of and restrictions on country spirit.

6 The consumption of ganja decreased from 32,900 seers to 31,600 seers in the Presidency other than Sind and from 582 seers to 500 seers in Sind. The decrease was mainly in Bombay City and the districts of Poona, Sholapur, Ahmedabad and Nasik. In Bombay City the decrease is reported to be due to the diversion of ganja addicts to illicit charas, while in the districts it is attributed to high selling prices charged at the shops. The consumption of bhang also showed a decrease of 141 seers in the Presidency (excluding Sind) and 8,868 seers in Sind. The large decrease in Sind is attributed to the general economic depression and unfavourable character of the year on account of abnormal rains and floods. The remarkable increase of 4,106 seers in the consumption of charas in Sind was the result of the reduction of duty from Rs. 60 to Rs. 20 per seer and the fixation of the maximum selling price at the low rate of 12 annas a tola. The total revenue derived from the sale of hemp drugs throughout the Presidency was Rs. 25,98,916 as against Rs. 27,23,917 in the previous year.

7. The sales of opium decreased from 22,100 seers to 21,350 seers in the Presidency other than Sind and from 5,300 seers to 5,100 seers in Sind. The decrease in the Presidency excluding Sind was due to trade depression and the high selling prices charged by licensees as a result of heavy vend fees which they had to pay on account of keen competition. In Sind the decrease in consumption is attributed to high selling prices and the unfavourable character of the season owing to abnormal rains and floods. The revenue derived from opium decreased from Rs. 29,02,000 to Rs. 28,09,000 in the Presidency other than Sind and from Rs. 5,48,000 to Rs. 5,37,000 in Sind.

8. The gross total expenditure on administration, exclusive of (1) refunds (Rs. 2,28,627) and (2) compensation to (a) the Bombay Municipality for loss of revenue which it previously derived from shop licenses (Rs. 1,43,750) and (b) the District Local Boards in the Presidency (excluding Sind) in lieu of the one anna cess on excise revenue which they were formerly allowed (Rs. 1,55,048) was in the Presidency (excluding Sind) Rs. 26,09,000 as against Rs. 26,41,000 in the previous year, and in Sind Rs. 3,41,000 as against Rs. 3,50,000. The net excise revenue increased from Rs. 3,15,80,000 to Rs. 3,33,36,000 in the Presidency other than Sind. In Sind there was a decrease of Rs. 2,33,000

9. The thanks of Government are due to the Commissioner and the officers serving under him for the efficient working of the department during the year under report.

By order of the Government of Bombay  
(Transferred Departments),

H. V. R. IENGAR,  
Acting Under Secretary to Government.
